25X1C SOURCE

following observations on 21 June 1949 in the area scutts of BOBLIN (0 54/4 45):

a. The border was strictly guarded. Double guards patrolled roads and field paths at intervals of 800 to 1,000 feet. No dogs were seen with the border guards. The border was blocked by trip wires and wire entanglements.

b. Besides patrols, stationary sentries, mostly sitting on trees and equipped with field glasses and sound locators, were guarding the border.
